**Observations and Findings: Report**  
 This amendment to 3-A Symbol Authorization 808 will add Model LRP-425 is based on the Dynashear (DS) product family. The LRP-425 has been reviewed and are found in conformity with 3-A Standard 36-01. All materials, seal assembly, and supporting documentation are consistent with the DS line and will be manufactured and assembled in the previously reviewed facility.

This amendment also acknowledges there are no changes to the annotated standard 36-01 and therefore the previously submitted document is still valid. Model LRP-425 is found in conformity with Standard 36-01 and is added to the model listing.

Declaration of Findings:

Nonconformance (*Note: If any "No" items are checked, the "Nonconformance" box shall be marked.*) When the "Nonconformance" box is marked, additional statements specifically describing which criteria from the base 3-A Sanitary Standards were not in conformance must be included in the "Observations and Findings" column or on an attached page.)

Conformance    I, the undersigned CCE, do hereby certify that the equipment covered by this report has been thoroughly evaluated and complies with all the appropriate criteria of the covering 3-A Sanitary Standards.

CCE Signature:

Lyle w. Clem, 3-A CCE
