

## Are you working with these ingredients?

- Acesulfame K
- Aspartame
- Caffeine
- Calcium
- Caseinates
- Citric Acid
- CMC
- Dairy Powders
- Flavor Concentrates
- Fructose
- Guar Gum
- Maltodextrin
- Minerals
- Natural Sweeteners
- Pectin
- Preservatives
- SHMP
- Soy Proteins
- Sucrose
- Taurine
- Tea Powders
- Vitamins
- Whey Proteins
- Xanthan Gum

## Do you manufacture these products?

- Ready-to-Drink Beverages
- Carbonated Drinks
- Sport Drinks
- Energy Drinks
- Nutraceuticals
- Fruit / Vegetable Juice
- Flavored / Enriched Water
- Coffee / Tea
- Bar Mixes
- Protein Drinks
- Drink Bases
- Syrups, Concentrates

## Are these problems affecting your operation?

- Slow Batch Times
- Lumps, Clumps, Fisheyes
- Clogged Strainers
- Inconsistent Powder Incorporation
- Dust
- Air Entrainment
- Operator Injuries from Dumping Powders
- More Powders to Disperse in Less Water

Admix leads the industry with advanced mixing technologies. Our high speed in-tank, inline, and powder induction & dispersion solutions are designed to help our beverage clients process products faster, better, cheaper, and safer.

Admix equipment can address your toughest beverage process challenges:

- Eliminate multiple time-consuming premix dissolutions
- Add powders and liquids from the safety of floor level
- Induct and disperse gums in a single pass with no recirculation loop
- Reduce batch times by 50% or more
- Eliminate batch inconsistencies
- Create continuous inline emulsions
- Reduce dust
- Induct and disperse powders directly from super sacks
- Eliminate high pressure homogenizers
- Reduce energy consumption
- Induct and disperse up to 70% solids in a single pass

**3-A Sanitary**  
Certification across  
many product lines.

## IN-TANK BATCH PROCESSING

**Rotosolver**<sup>®</sup> High shear dispersers from lab to production sizes

**Rotomixx**<sup>®</sup> Sanitary low shear mixer and tote agitator

**Rotomaxx**<sup>™</sup> High torque right angle mixers

**Rotomaxx**<sup>™</sup> II Low speed, large capacity low shear mixer

## INLINE MIXING & MILLING

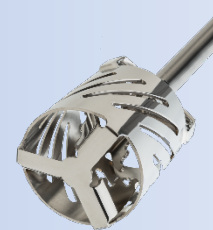

**Dynashear**<sup>®</sup> High shear 2-stage disperser and emulsifier

**Boston Shearmill**<sup>®</sup> Heavy duty wet mill with up to 9 high shear zones

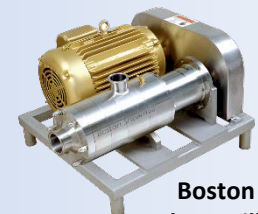

**Admixer**<sup>™</sup> Static mixer blending of miscible fluids

## POWDER INDUCTION & DISPERSION

**Fastfeed**<sup>™</sup> skid mounted system that simultaneously inducts & disperses powders at high-speed rates

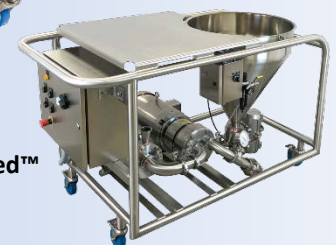

**Rotosolver**<sup>®</sup>  
Patented

**Boston Shearmill**<sup>®</sup>

**Dynashear**<sup>®</sup>

**Fastfeed**<sup>™</sup>
